01.01.2019

SOFTLINE/SLIMLINE/FRONTLINE

Our Softline/Slimline/Frontline Shelving Systems are the essence of many years of experience and success. This flexible product concept has evolved over the years and the modular structure and the large number of standard components ensure ideal room utilization and rational accommodation of all relevant functions. In addition the flexibility of the system allows a variety of individual solutions which our design teams bring to life for the individual library.

You will find all our standard products in this overview. For additional inspiration we invite you to visit our website where you can find project inspiration from our latest projects around the world.

The Softline/Slimline/Frontline shelving systems are shown in many creative configurations and our broad portfolio of library furniture provides endless possibilities. Please contact our professional sales teams for inspiration.

TECHNICAL SPECIFICATIONS

GENERAL SPECIFICATIONS

DIMENSIONS

Dimensions of complete bays in available modules and heights can be found in each catalogue section which include complete configurations. See index page for overview.

MAXIMUM LOAD

Steel top shelf without backedge - max. load of 25 kg

Steel shelf with backedge - max. load of 80 kg

Wood top shelf without backedge - particleboard - max. load of 25 kg

Wood shelf with backedge - block board - max. load of 80 kg

MOBILE SHELVING UNITS/WHEEL STANDS AND CASTORS

Only double-sided shelving units with a max. height of 152 cm and maximum 3 bays can be mounted with castors. Castors are available with or without brakes. Max. load of 160 kg per castor.

STABILITY

All panels are provided with adjustable feet that can be adjusted even when the system is loaded. Single-sided up-rights are supplied with wall securement.

ROUNDED EDGES

All storage units and brackets have rounded edges.

ASSEMBLY

All wooden shelving units come knocked-down. Assembly guidelines can be found on our website.

VENEERED WOODEN COMPONENTS

are mainly lacquered with UV-lacquer. See design options for veneer specifications.

PAINTED WOODEN COMPONENTS

are made of MDF (medium density fibre board) which is painted with acid lacquer. Standard components have gloss 20 - 30. See design options for colour specifications.

STEEL POWDER COATING

Steel components are powder coated mainly with thermo hardened polyester powder. Depending on colour choice some powders include epoxy. Thickness of the coating is 60-80 my. See design options for colour specifications and type of powder.

STEEL COMPONENTES

STEEL METAL FRAMES

are made of 30 x 20 x 1.5 mm steel tubes. The metal frame is easy to assemble between the panels.

STEEL BRACKETS

are made of 1.4 mm sheet steel.

STEEL SHELVES/BROWSERS/CABINETS/PULL-OUT SHELVES

are made of 0.9 mm sheet steel. The flat steel shelves have a 25 mm high front edge. Flat steel shelves can be mounted in a sloping position by changing brackets.

WOODEN COMPONENTS

DENSITY

Particle board has a density of 600-700 kg/m³

Block board has a density of 602 m³ (+/- 2 %)

MDF has a density of 700 kg/m³ (+/- 5-7 %)

VENEERED PANELS

are made of 22 mm particle board and are veneered with 0.6 mm veneer. All edges on Slimline and Frontline panels are banded with 4 mm solid wooden edge strip. Softline panels have a 25 mm solid rounded, wooden edge on the front and the other edges are banded with a 4 mm solid wooden edge strip. The panels have two holes in the bottom for adjustable feet.

TECHNICAL SPECIFICATIONS

VENEERED DISPLAY END PANELS

are made of 22 mm MDF and are veneered with 0.6 mm veneer. All edges on Frontline panels are banded with a 4 mm solid wooden edge strip. Slimline and Softline panels have vertical edges banded with a 32 mm solid wooden edge and horizontal edges banded with a 4 mm solid wooden edge strip. The panels have two holes in the bottom for adjustable feet.

VENEERED END PANELS FOR FRONTLINE SQUARE

are made of 22 mm MDF and are veneered with 0.6 mm veneer. All edges are banded with a 4 mm solid wooden edge strip.

VENEERED BACK PANELS

are made of 16 mm particle board and are veneered with 0.6 mm veneer. The horizontal edges are banded with a 4 mm solid wooden edge strip. The vertical edges are not banded, as they are not exposed after assembly of the back panel.

VENEERED SHELVES

are made of 22 mm block board and are veneered with 0.6 mm veneer. The front and back edges are banded with 4 mm solid wooden edge strip.

VENEERED TOP SHELVES

are made of 22 mm particleboard and are veneered with 0.6 mm veneer. The front and back edges are banded with 4 mm solid wooden edge strip.

VENEERED CORNER SHELVES

are made of 22 mm particleboard and are veneered with 0.6 mm veneer. The straight edges are banded with 4 mm solid wooden edge strip and the front has a 1 mm wooden edge strip.

VENEERED KICK PLATES

are made of 19 mm particleboard and are veneered with 0.6 mm veneer on the front. The top edge is banded with 4 mm solid wooden edge strip.

PAINTED PANELS

are made of 22 mm MDF. The panels have a wooden based edge on the lower edge to strengthen the end panel and have two holes in the bottom for adjustable feet.

PAINTED DISPLAY END PANELS

are made of 22 mm MDF. The panels have a wooden based edge on the lower edge to strengthen the end panel and have two holes in the bottom for adjustable feet.

PAINTED END PANELS FOR FRONTLINE SQUARE

are made of 22 mm MDF.

PAINTED BACK PANELS

are made of 16 mm MDF and are painted on all sides and edges.

PAINTED SHELVES

are made of 22 mm blockboard with 3 mm MDF.

PAINTED TOP SHELVES

are made of 22 mm MDF.

PAINTED KICKPLATES

are made of 19 mm MDF.

MELAMINE BACK PANELS

are made of 16 mm particleboard. The horizontal edges are banded with a 4 mm flat edging of ABS. The vertical edges are not banded, as they are not exposed after assembly of the back panel.

DESIGN OPTIONS

STANDARD STEEL COLOURS

STEEL PARTS (Uprights, crossbars, brackets, shelves, functions, kickplates, light housing)

The steel parts can be produced in standard steel colours at no extra charge. The only exceptions are Mango (#237), Copper (#241) and City Grey (#236) that have a 3% price supplement.

The steel parts can also be powder coated in other colours with the following surcharges:

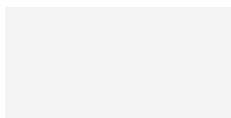

- Starter fee for RAL colours: EUR 210 + Aufschlag von 15%*
- Starter fee for NCS colours: EUR 460 + Aufschlag von 15%*
- Starter fee for custom colours: EUR 460 + Aufschlag**

*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

**Surcharge depends on supply channel and project size.

Note

- Steel gloss range is between 60 and 80, except for Champagne Mist (Eurobib off-white), that has steel gloss range between 25-35. Special requests outside this gloss range are not covered by the above surcharges.
- Chrome, electro galvanised and aluminium parts are not available in other colours.
- Products such as e.g. wheels and accurides cannot be produced in other colours than described in the price list.

DESIGN OPTIONS

WOODEN PARTS

(Shelves, panels, display panels, table tops)

Veneer

The wooden parts can be manufactured in a number of different lacquered veneers:

- #54 Cherry wood: surcharge of 40%
- #55 Light steamed beech: no surcharge
- #66 Oak: surcharge of 15%
- #67 Maple: surcharge of 20%
- #68 Ash: surcharge of 20%
- #69 Birch: no surcharge
- #70 Beech: no surcharge

#54 Cherry

#55 Light steamed beech

#66 Oak

#67 Maple

#68 Ash

#69 Birch

#70 Beech

The wood veneers can also be stained with an additional surcharge, please ask customer service. Samples will be forwarded for approval.

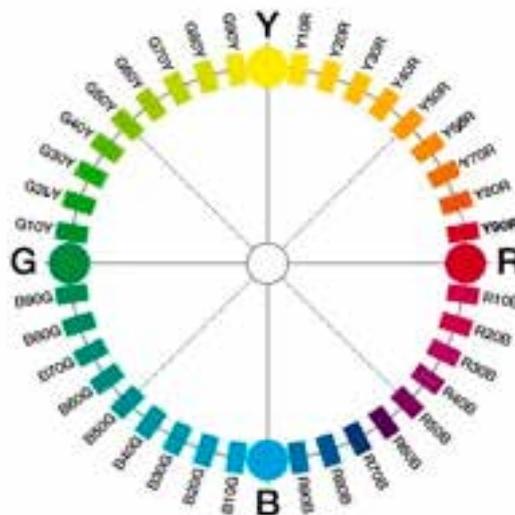

Melamin/Laminat

Most of the wooden components are available in melamine or laminate with an additional surcharge, please ask customer service.

Painted

The wooden components can be painted in any NCS colour in gloss 30 without extra surcharge*. For maximum robustness we recommend laminated wooden shelves.

*A higher surcharge for colours with "metallic" look or different surface textures must be expected.

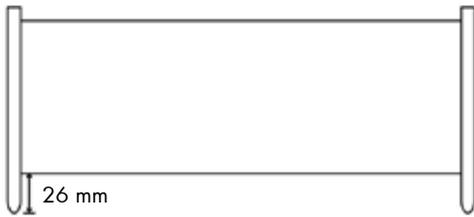

Examples of NCS colours

Bro Public Library, Sweden
Soffline Shelving System

SOFTLINE SHELVING SYSTEM

The following pages will show basic configurations of the Softline Shelving System.

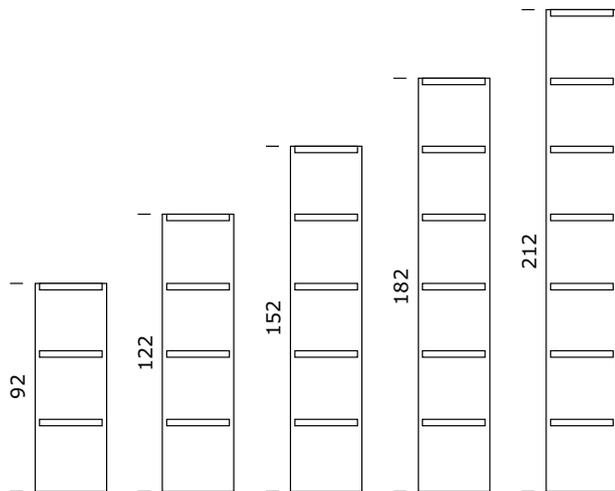

Softline comes with a 25 mm super elliptical shaped edging of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 26 mm.

Softline configurations are delivered as standard in light steamed beech veneer, no. 55 or birch veneer, no. 69. They can also be delivered in painted MDF in any NCS or RAL colour upon request (see Design Options page 7).

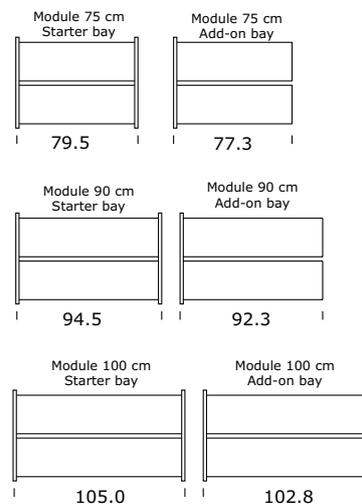

HEIGHTS

Softline shelving is available in 5 heights; 92, 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

WIDTHS

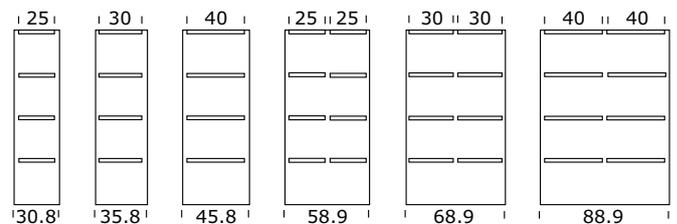

The bays are available in 75, 90 and 100 cm modules and as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

DEPTHS

The panels are available in 6 depths:

- 30.8 cm for 25 cm deep shelves
- 35.8 cm for 30 cm deep shelves
- 45.8 cm for 40 cm deep shelves
- 58.9 cm for 2 x 25 cm deep shelves
- 68.9 cm for 2 x 30 cm deep shelves
- 88.9 cm for 2 x 40 cm deep shelves

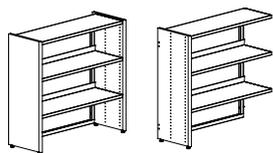

SOFTLINE SHELVING SYSTEM

SINGLE-SIDED - WITH SHELVES

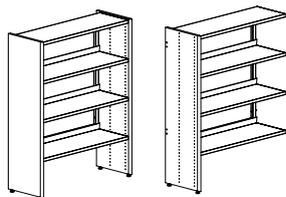

Complete shelving system with panels, metal frame, shelves, top shelf, brackets, fittings and wall securement. Shelves are steel shelves with acrylic backedge, top shelf is steel without acrylic backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

Slimline Shelving System

SLIMLINE SHELVING SYSTEM

The following pages will show basic configurations of the Slimline Shelving System.

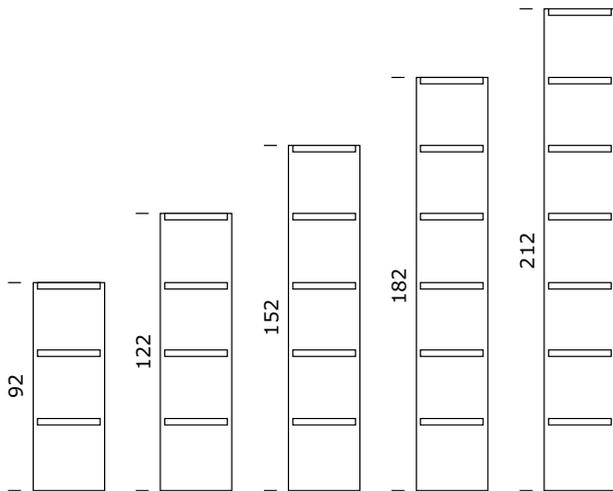

Slimline comes with a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 26 mm.

Slimline configurations are delivered as standard in light steamed beech veneer, no. 55 or birch veneer, no. 69. They can also be delivered in painted MDF in any NCS or RAL colour upon request (see Design Options page 7).

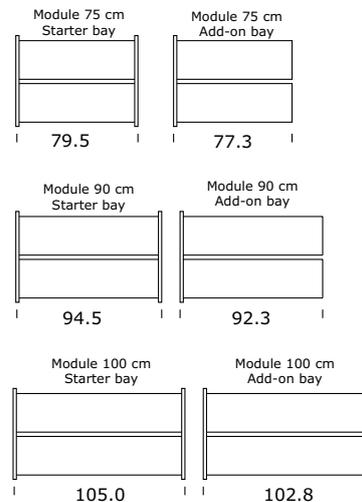

HEIGHTS

Softline shelving comes in 5 heights; 92, 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

WIDTHS

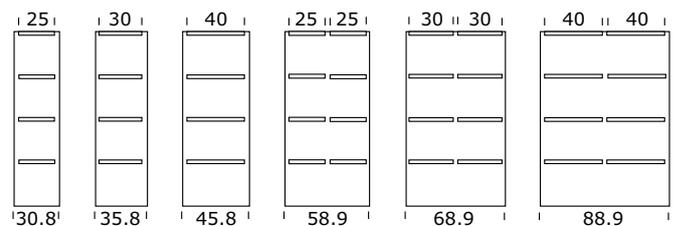

The bays are available in 75, 90 and 100 cm modules and as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

DEPTHS

The panels come in 6 depths:

- 30.8 cm for 25 cm deep shelves
- 35.8 cm for 30 cm deep shelves
- 45.8 cm for 40 cm deep shelves
- 58.9 cm for 2 x 25 cm deep shelves
- 68.9 cm for 2 x 30 cm deep shelves
- 88.9 cm for 2 x 40 cm deep shelves

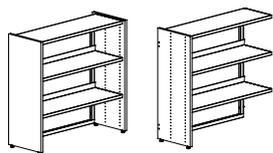

SLIMLINE SHELVING SYSTEM

SINGLE-SIDED - WITH SHELVES

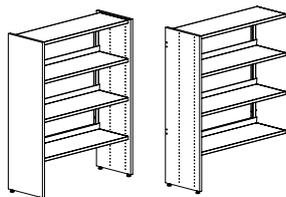

Complete shelving system with panels, metal frame, shelves, top shelf, brackets, fittings and wall securement. Shelves are steel shelves with acrylic backedge, top shelf in steel without backedge. Number of shelves are calculated for optimal shelf spacing for fiction.

Frontline Shelving

FRONTLINE SHELVING SYSTEM

The following pages will show 3 basic configurations of the Frontline Shelving System with either 22 or 38 mm thick panels:
 Frontline with 22 mm panels and no shelves.

Frontline with 22 mm panels and x pcs. of steel shelves.

Frontline with 38 mm panels, 38 mm top and bottom shelf and x pcs. of steel shelves.

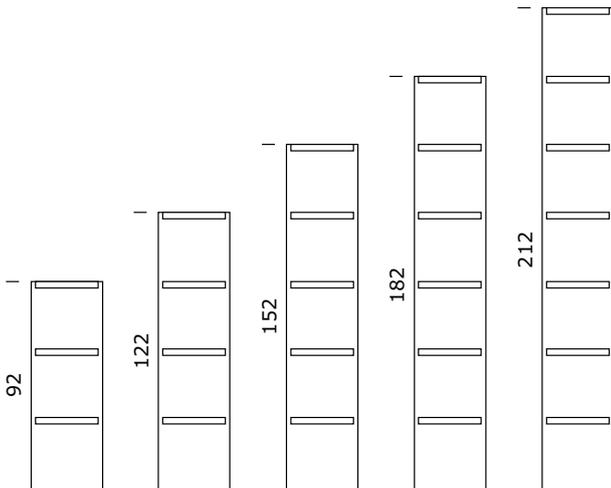

The Frontline end panel has a 4 mm flat front edge of solid wood. The distance between the front edge of the end panel and the front edge of the shelf is 5 mm.

Standard Frontline configurations are delivered in light steamed beech veneer no. 55, birch veneer no. 69 and beech veneer, no. 70. They can also be delivered in painted MDF in any NCS or RAL colour upon request (see Design Options page 7).

HEIGHTS

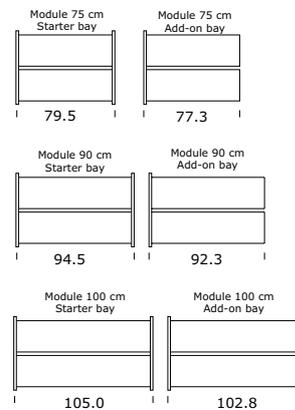

Frontline 22 shelving is available in 5 heights; 92, 122, 152, 182 and 212 cm and Frontline 38 is available in 4 heights; 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

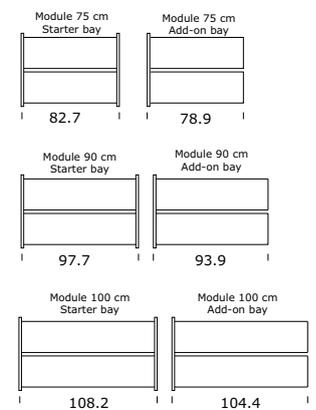

WIDTHS

The bays are available in 75, 90 and 100 cm modules and as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

Frontline 22

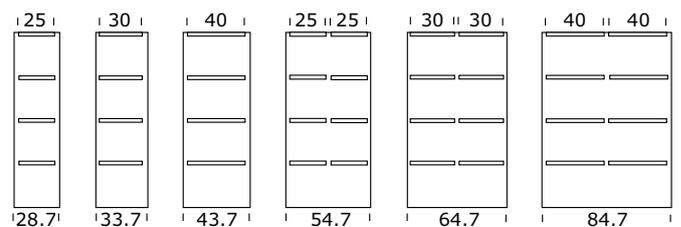

Frontline 38

DEPTHS

The panels are available in 6 depths:
 28.7 cm for 25 cm deep shelves
 33.7 cm for 30 cm deep shelves
 43.7 cm for 40 cm deep shelves
 54.7 cm for 2 x 25 cm deep shelves
 64.7 cm for 2 x 30 cm deep shelves
 84.7 cm for 2 x 40 cm deep shelves

Slimline Radius Shelving System

SLIMLINE RADIUS SHELVING

The following pages will show basic configurations of the Slimline Radius Shelving System based on Slimline components. The shelving system is double-sided.

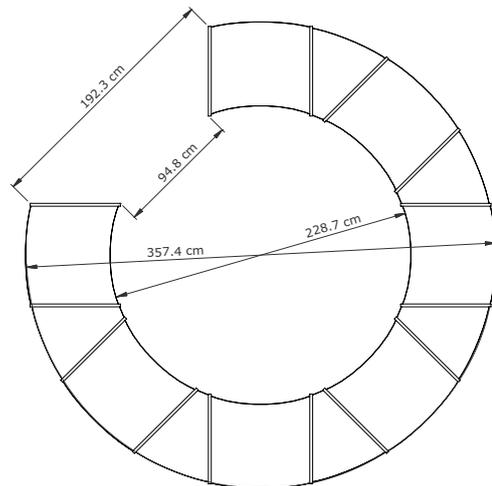

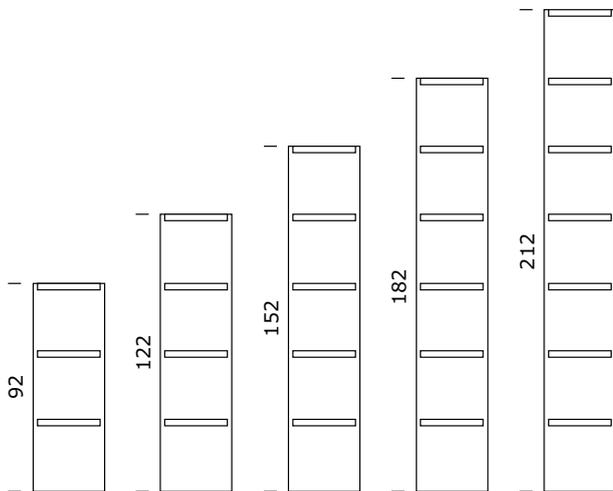

The shelving system has panels with a straight front edge. The wooden shelves are concave on the inside of the circle and convex on the outside of the circle. The inside diameter of full shelving circle is 228.7 cm and the outside diameter of full shelving circle is 357.4 cm.

The start- and add-on bays have a full back. The 45° corner shelf bay does not have a full back, but instead has an 8.3 cm opening when seen from the inside.

Slimline Radius configurations are delivered as standard in any NCS or RAL colour, light steamed beech veneer, no. 55 or birch veneer, no. 69 (see Design Options page 7).

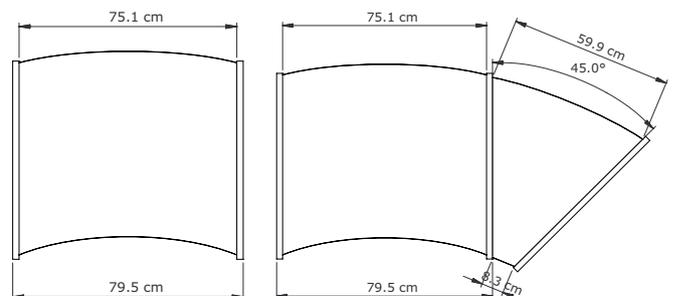

HEIGHTS

The shelving system comes in 5 heights; 92, 122, 152, 182 and 212 cm. Heights include adjustable feet (max. 2 cm). The shelves are adjustable in 2.5 cm increments.

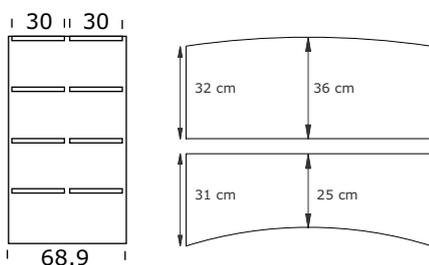

WIDTHS

The bays are available as starter and add-on bays, module 75 cm. A starter bay has two panels and an add-on bay has two intermediate panels.

DEPTHS

The end panel depth is 68.9 cm. The concave shelves are 31/25 cm and the convex shelves are 32/36 cm.

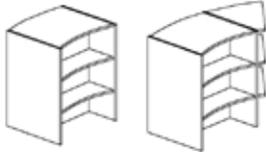

SLIMLINE RADIUS SHELVING

CONFIGURATIONS - VENEER

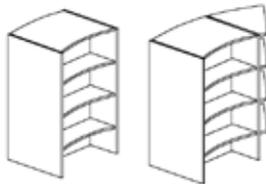

Complete shelving bays where a starter bay consist of 2 outside panels, 1 full back, concave and convex shelves and fittings. An add-on bay consist of 2 intermediate panels, 1 full back, concave and convex shelves, 45 degree corner shelves and fittings.

Frontline Square - shelving & display

FRONTLINE SQUARE

The following pages will show basic configurations of Frontline Square - shelving and display.

Frontline Square can be used in different environments for display, storage, exhibition and more. The top plate which is also available in laminate can also serve as a worktable, display or a play area.

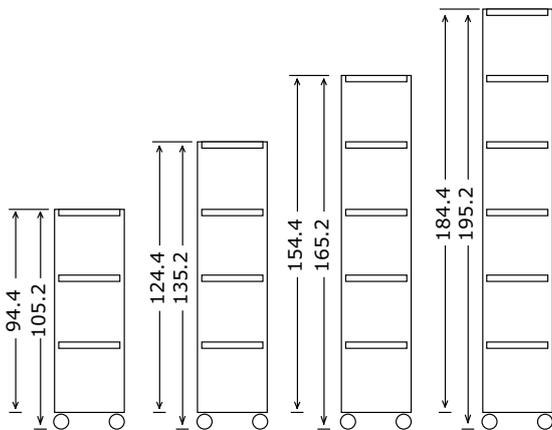

Configurations are available both with and without shelves. All standard models are equipped with 8 castors, so you can move the unit to the position you want. The panels are ideal for graphics and signage which can emphasize a theme, a classification or general information. This combined with colour can create the atmosphere you want to tempt your visitors to borrow books or just to enjoy their stay.

Frontline Square configurations are delivered as standard in MDF in any NCS or RAL colour, light steamed beech veneer no. 55, birch veneer no. 69 and beech veneer, no. 70 (see Design Options page 7).

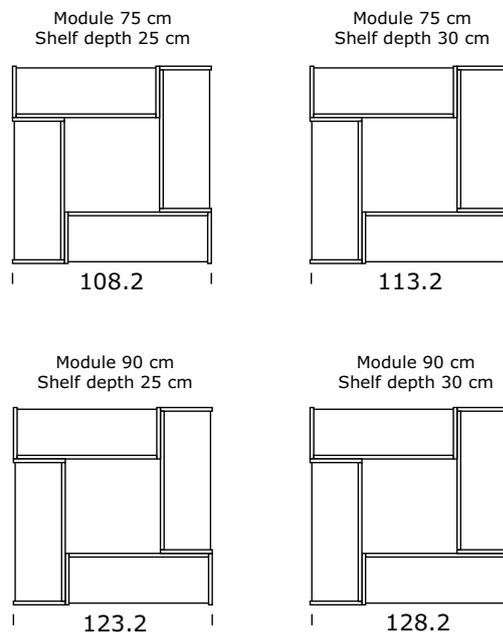

HEIGHTS

The shelving system comes in 4 heights (with castors Ø8 cm); 92 (105.2), 122 (135.2), 152 (165.2) and 182 (195.2) cm. The shelves are adjustable in 2.5 cm increments.

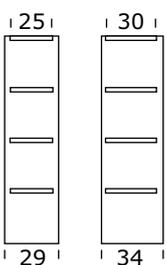

WIDTHS

The shelving system comes with two shelf widths; 75 and 90 cm. The total width of the unit depends on your choice of both shelf width and shelf depth; 108.2, 113.2, 123.2 and 128.2 cm.

DEPTHS

The panels come in 2 depths;
29 cm for 25 cm deep shelves
34 cm for 30 cm deep shelves

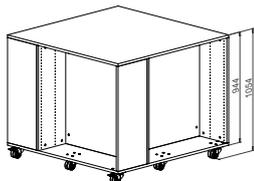

FRONTLINE SQUARE

CONFIGURATIONS WITHOUT SHELVES - VENEER

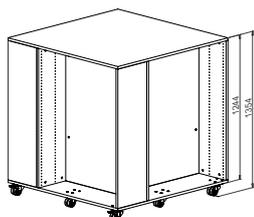

A square shelving with end panels, back panels, top and bottom plate and fittings. Add shelves and functions of your choice, see from page 77. There are 8 castors in total (2 with brake). The maximum load is 600 kg. Available in veneer, painted or painted with laminated top.

Dokk1 Public Library, Århus, Denmark
Ordrup Square

ORDRUP SQUARE

The following pages will show basic configurations of Ordrup Square.

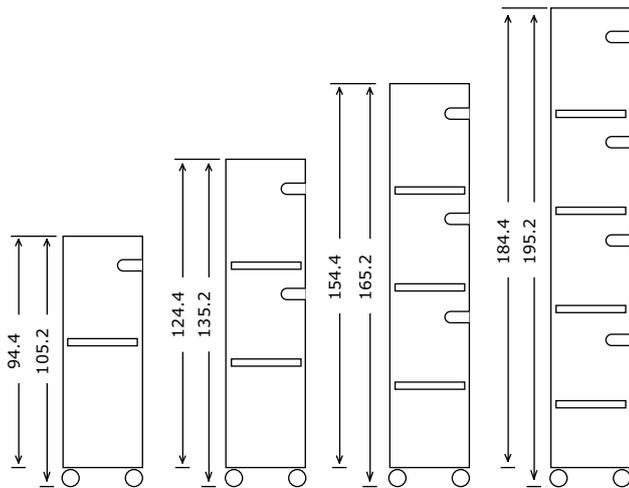

Ordrup Square is a combined magazine display and storage unit on castors. It is based on Slimline upright panels with end panels and cabinet doors with acrylic display. Behind the cabinet doors with acrylic display are compartments providing A4 vertical storage boxes for older versions of the magazines. The end panel comes with a 4 mm flat front edge of solid wood. The top plate can also serve as a display or play area, depending on the height of the furniture.

All standard models are equipped with 8 castors, so you can move the unit to the position you want. The end panels are ideal for graphics and signage which can emphasize a theme, a classification or general information.

Ordrup Square configurations are delivered as standard in MDF in any NCS or RAL colour, light steamed beech veneer no. 55 and birch veneer no. 69 (see Design Options page 6).

HEIGHTS

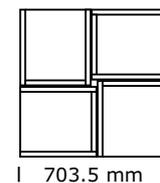

The shelving system comes in 4 heights (with castors Ø7.5 cm); 92 (105.2), 122 (135.2), 152 (165.2) and 182 (195.2) cm.

WIDTHS

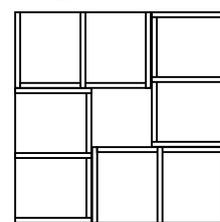

The shelving system comes with 3 widths; 1, 2 or 3 columns. The total width of the unit depends on the amount of columns.

1 column

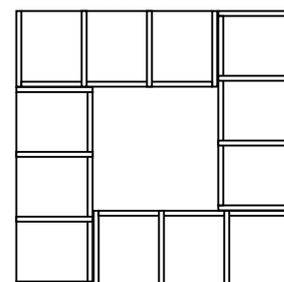

703.5 mm

2 columns

1027.5 mm

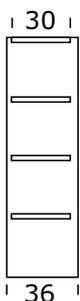

3 columns

1351.5 mm

DEPTHS

The depth of the Ordrup Square is 36 cm.

ORDRUP SQUARE

The magazine display and storage shelving systems become more and more popular, not only in the library but also in various public areas where magazines need to be exposed and stored in a user friendly way. With our two different systems you can organize your magazines in an easy-to-find way and at the same time logically store older versions of the magazines.

These elegant and streamlined displays fit in nicely with several of our main products; Slimline, Radius, Box and 60/30 Steel Shelving with London panel and top shelves. Use the magazine display and storage shelving as a piece of furniture on its own or as a room divider to help create just the right atmosphere.

Sundby Public Library, Denmark
Ordrup Display

ORDRUP DISPLAY

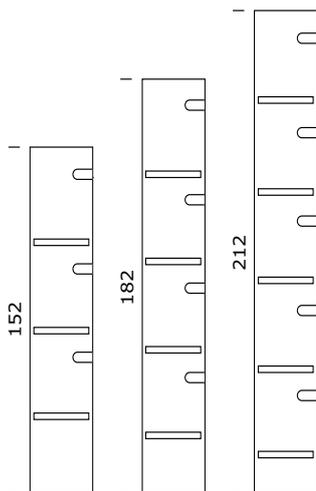

The Ordrup display is a combined magazine display and storage unit based on Slimline upright panels and cabinet doors with acrylic display. The end panel comes with a flat front edge. Note that the height of the kickplate is different for all three shelving heights.

Behind the cabinet doors with acrylic display are compartments providing A4 vertical storage boxes for older versions of the magazines.

Ordrup configurations are delivered as standard in light steamed beech veneer no. 55 and birch veneer no. 69 and in any NCS or RAL colour (see Design Options page 7).

HEIGHTS

Ordrup Display comes in 3 heights;
152, 182 and 212 cm.
Heights include adjustable feet (max. 2 cm).

WIDTHS

The bays are available as starter and add-on bays.
A starter bay has two outside panels while an add-on bay has one intermediate panel.

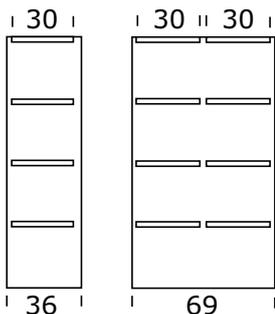

INNER COMPARTMENT

The inner compartment has the following size:
Height: 33,5 cm
Width: 30,2 cm
Depth: 30,0 cm

DEPTHS

The panels come in 2 depths;
36 cm for 30 cm deep shelves (single-sided)
69 cm for 2 x 30 cm deep shelves (double-sided)

ACRYLIC FRONT

The acrylic front can take magazines up to the following size:

Height: 32,5 cm
Width: 27,2 cm
Depth: 0,7 cm

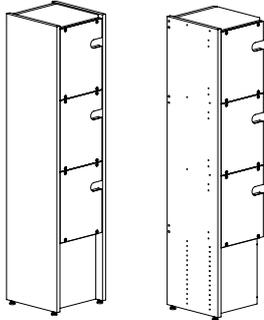

ORDRUP

SINGLE-SIDED - VENEER & PAINTED

Bara Public Library, Sweden
Singles - display shelf and storage

SINGLES

Singles is a combination of wooden panels and steel shelves.

The end panel comes in Softline or Slimline design. The kickplate for height 182 cm is 21 cm and for height 212 cm is 12 cm.

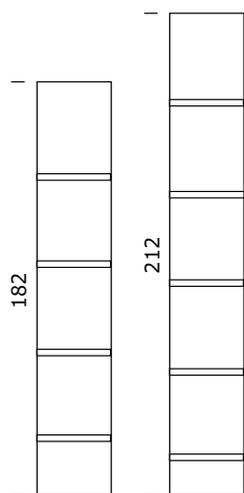

Behind the steel lift-up display shelves are compartments providing space for piles of back issues.

It is to be noted that the only difference between Softline and Slimline is the shape of the front edge of the panels. Softline comes with a 25 mm elliptical shaped edging of solid wood and Slimline comes with a 4 mm flat front edge of solid wood.

Singles configurations are delivered as standard in any NCS or RAL colour, in light steamed beech veneer no. 55 or birch veneer no. 69.

HEIGHTS

Singles wood shelving comes in 2 heights; 182 and 212 cm. Heights include adjustable feet (max. 2 cm).

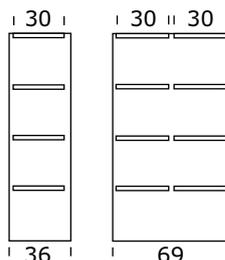

WIDTHS

The bays are available as starter and add-on bays. A starter bay has two outside panels while an add-on bay has one intermediate panel.

DEPTHS

The panels come in 2 depths; 36 cm for 30 cm deep shelves (single-sided) 69 cm for 2 x 30 cm deep shelves (double-sided)

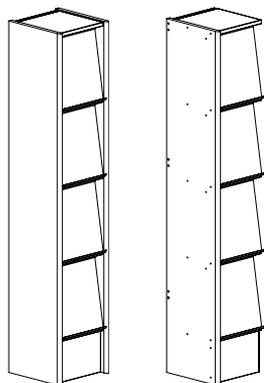

SINGLES

Showit Display

This page shows the elements used for Showit. Showit consists of four elements, two boxes and two bars. Box 195 is available with rotation fittings for Bar 101 allowing the bar to rotate 360°. All elements come with castors adding mobility to the system. Showit is optimal for displaying book front covers and creating themes using books and objects, thus attracting library users.

They are made of painted MDF and are delivered as standard in any NCS or RAL colour (see Design Options page 6). All elements are available with or without laminate on the top surface.

STUDY TABLES

SINGLE- & DOUBLE-SIDED - VENEER & PAINTED

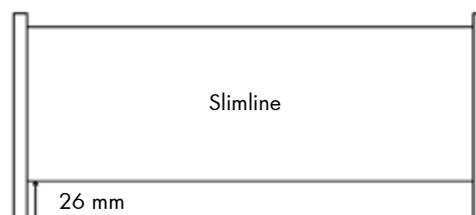

STUDY TABLES

SINGLE- & DOUBLE-SIDED - VENEER & PAINTED

This page will show basic configurations of the Softline and Slimline study tables.

It is to be noted that the only difference between Softline and Slimline is the shape of the front edge of the panels. Softline comes with a 25 mm superelliptical shaped edging of solid wood and Slimline comes with a 4 mm flat front edge of solid wood.

The study tables are delivered as standard in light steamed beech veneer, no. 55, birch veneer, no. 69 or in painted particleboard in any NCS or RAL colour (see Design Options page 7).

HEIGHTS

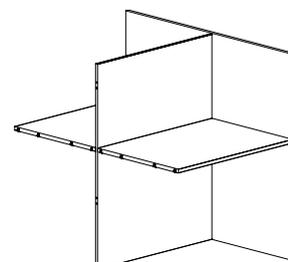

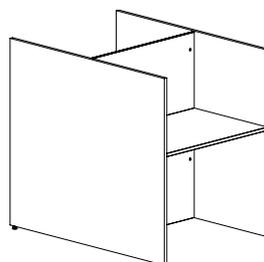

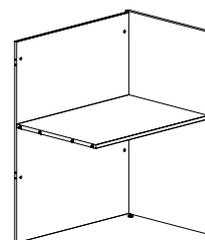

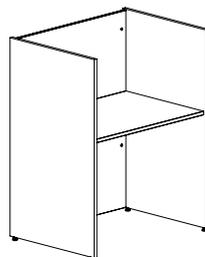

The study table comes with 122 cm high panels.
The table top is placed at 72.5 cm height.
Heights include adjustable feet (max. 2 cm).

DEPTHS

The panels come in 2 depths;
68.9 cm for single-sided bay
134.2 cm for double-sided bay

WIDTHS

The bays are available as starter and add-on bays.
A starter bay has two outside panels while an add-on bay has one intermediate panel.
A starter bay is 94.5 cm wide.
An add-on bay is 92.3 cm wide.

Complete configurations with panels, full back, table top and fittings.

Frontline shelving with metal back frame and castors

WOODEN SHELVING

CHECK LIST

When constructing your own shelving, there are many factors to be taken into consideration and most importantly, you must remember to order all parts. Below you will find a check list of components you need to consider when constructing your own wooden shelving.

PANELS

Before constructing your shelving system you must know the height and depth of your finished shelving. You must then choose which end panel (the main component of your shelving) you would like – Softline, Slimline or Frontline - see from page 68. For double-sided shelving you also have the option of choosing an end panel bay for Softline or Slimline - see page 14 and 22.

BACK PANELLING

To support the shelving you must choose between either a steel back frame or a back panel. Steel back frame is standard in wooden shelving configurations. See from page 74.

COMPONENTS - KICKPLATES & CASTORS

Extra components to complete the function and design of your shelving. See page 76.

SHELVES & BRACKETS

There are some variables to consider when choosing shelves: vertical or sloping, wood or steel, and which type of top shelf should complete the shelving. Remember to order brackets, when not included. See from page 77.

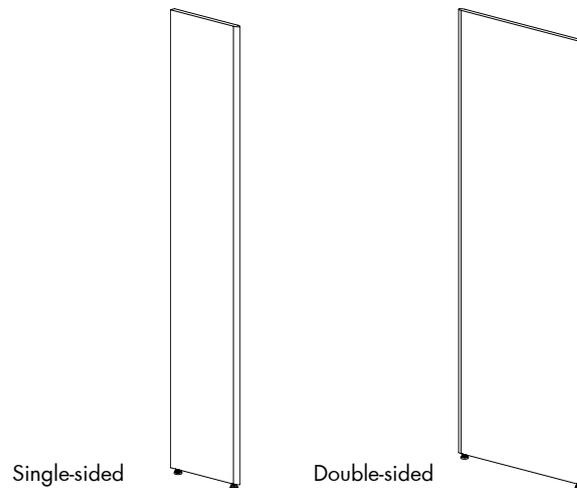

FUNCTIONS

A variety of possibilities to create the exact shelving you wish. Exchange shelving for one of the many options: browsers, cabinets, work stations or multimedia storage. See from page 87.

PANELS

SOFTLINE / SLIMLINE / FRONTLINE DISPLAY END PANELS

The display end panels can be mounted at the end of double-sided shelving that are 122, 152, 182 or 212 cm high. A display end panel therefore replaces an ordinary double-sided panel.

BACK FRAMES

SOFTLINE / SLIMLINE / FRONTLINE STEEL BACK FRAME

It is necessary with either a steel back frame or back panel when building a complete shelving system. The steel frame is included when ordering complete bays. However it may be necessary to order separate components as spare parts or when existing shelving units are rearranged.

BACK PANELS

SOFTLINE / SLIMLINE/ FRONTLINE BACK PANELS - VENEER AND PAINTED

Back panels can have various functions. First of all a shelving system with back panels provide a different look. The shelving systems can be used as room divider and will to some extent absorb noise. Back panels can by use of colours enhance themes combined with sloping display shelves or create room for posters etc. You can integrate work stations in the shelving system and separate them by use of back panels. The back panels are available in wood with a veneer, melamine or painted finish. See design options for veneer and colour options.

FUNCTIONS

Add multiple functionalities to your wooden shelving system! The wooden shelving systems provides a framework for building your own personalized shelving system that fits the requirements of your library and target group. This can be done by replacing shelves with functional components.

Choose one or more of the following function components to personalise and accommodate your own requirements into the shelving system:

Magazine display and storage

Cabinets and doors

Workstations

Multimedia storage

Browsers

Book supports

Signage

The Book Big LED lighting armature can be fitted on wooden top shelves and can be mounted over 1, 2 and 3 bays by use of connect fittings. Continuous runs also require connect fitting.

The armature is CE-approved and available in white and steel as standard. For other colours, please ask customer service.

Armature

For 2 bearing arms incl. light tube and louvre. Armature housing in aluminium.

Bearing arms Standard

To be mounted on top shelf

Bearing arms Front edge

To be mounted on frontedge of predrilled top shelf/top plate (special product)

End covers

Connect fitting

LIGHTING

BOOK BIG LIGHTING

Below you will find a list of products needed when ordering lighting for 1, 2 or 3 bays. For 4 or more bays, you must use a combination of the armatures for 1, 2 or 3 bays by connecting the armatures with a connect fitting. Eg. for 10 bays, you can either use 5 x 2 bays (with 4 connect fittings) or 3 x 3 bays and 1 x 1 bay (with 3 connect fittings).

1 bay
