SHELVING SYSTEM

## LINGO SHELVING SYSTEM

Functional, flexible and aesthetic

You will find exceptional versatility with the functional and flexible Lingo Shelving System.

It encapsulates the true meaning of flexibility. Its modular construction provides the highest degree of functionality and versatility and its style and quality makes it suitable for both contemporary and classic library environments.

The Lingo shelving system offers endless possibilities of function and design. The construction of the shelving system, with 25 mm increments, allows for easy assembly and adjustment without the use of specific tools.

The Lingo Shelving System is available as single- or double-sided, with and without castors and is built with either a steel back frame, a wooden back panel or cross braces. It can be fitted with steel or wooden shelves, as well as a wide variety of other functional components. The result – a customisable shelving systems that fits the requirements of your specific library.

Ever since the start  
80 years ago,  
libraries have been  
the heart of our business.  
Today, we are proud  
to call ourselves  
library people.
