# +10 Years of innovation

At Vondom, we have always been known for offering innovative and unique designer outdoor furniture. Since we began our trajectory in 2008 manufacturing designer planters and furniture with simple lines, our hallmark has been innovation. These new collections of outdoor furniture respond to an evolution marked by our search for greater sustainability, incorporating natural, 100% recyclable materials.

**VONDOM**

Our Mission

# Passion for Design

Our challenge has been to inspire  
a little life in every Vondom piece,  
achieving balance between every  
atmosphere, shape or form.

# Our factory

This is down to the firm business strategy that guides every aspect of the company: design, production, quality, marketing and promotion. In particular, the ongoing commitment to R+D+I.

 Beneixida  
València (Spain)

 Total area: 64.000 m2  
Build: 39.000 m2

 150 employees

We have added self-consumption by installing photovoltaic solar energy, with 1021 KWp of power. This photovoltaic installation is capable of producing 1,429,998 KWh per year, which will prevent approximately 908,895 Kgs of CO<sub>2</sub> emissions into the atmosphere. Which would be equivalent to Vondom planting roughly 60,000 trees.

REVOLUTION

Our philosophy is based on creating experiences that will leave impressions on the world whilst contributing to our society.

Our commitment is to manufacture sustainable designs aspiring to be pioneers, in the near future, of this eco-intelligent furniture industry revolution.

Pedrera

An underwater photograph showing a dense field of seagrass (Posidonia) in the foreground, with sunlight filtering through the water surface in the background.

# VONDOM

## Save Posidonia

At Vondom, we believe in the commitment to give back to the planet everything it has given us and we are convinced that sustainability is our responsibility.

As a company committed to the environment, we are aware of the importance of “posidonia”, the marine lung of the Mediterranean sea, for the planet. For this reason, we collaborate with Fundació Oceanogràfic València for the protection and conservation of posidonia in the Mediterranean coasts. We want to do our part to guarantee a sustainable future and protect our marine biodiversity.
