ADAN MACETEROS 13x17x18

By Teresa Sapey

Teresa Sapey surprises us with her creations, this time through the ADAN Collection, an item with a lot of personality, and a shape which is faceted, like that of a diamond. More than objects, they are multifunctional architecture pieces, since besides being used as vases they can be used as seats, flower pots, auxiliary tables... They are lifestyle objects that create a stir, fitting in with any style and are made of materials that allow for both outdoor and indoor use.
