

BUM-BUM COFFEE TABLE 148x68x38

By Eugeni Quitllet

BUM BUM was born from the principle of not designing objects, but rather musical instruments to be used for another purpose; the same as a person who holds a shell to their ear to hear the ocean. This collection that has tubular shapes allows us to experiment with light and sound simultaneously. It's "argonautic" form enables us to create a new environment, as well as atmospheric spaces, wherever we are. The collection is made up of a sofa, a table, an armchair and "toro"(bull), a unique member with a great variety of functions. It is a collection designed for the God of the sea, Neptune, and the mermaids that dance in time with the waves...It's that simple... a summer dream.
